PRODUCT ENGINEERING LEADER | TECHNICAL PRODUCT MANAGEMENT | TECHNICAL PROGRAM MANAGEMENT

Product Engineering and Technical Product Management Leader with **16+ years** of experience building and scaling enterprise platforms across **E-Commerce, Supply Chain, Automotive, Manufacturing, and Enterprise Technology**. Expertise in **Product Strategy, Platform Product Management, 0→1 Product Development, Platform Modernization, Technical Program Management, and Engineering Governance**. Proven ability to translate customer insights into scalable products, lead global cross-functional teams, & deliver business outcomes through customer-centric innovation, operational excellence, and data-driven decision-making.

Executive Highlights:

- Successfully transitioned from **Product Engineering to Technical Product Management**, leveraging deep engineering expertise to build customer-centric platform products.
- Led product initiatives across geographically distributed teams spanning **North America, Europe, APAC, and South America**, collaborating with diverse business and engineering organizations.
- Established product governance, operating models, and portfolio management practices that improved execution discipline and organizational maturity.
- Built a reputation for developing high-performing teams, fostering collaboration, and driving a culture of innovation, ownership, and continuous improvement.
- Recognized as an **Amazon Bar Raiser, Lean Six Sigma Black Belt**, and **ISO 9001:2008 Auditor** for leadership, operational excellence, and quality transformation.

CORE SKILLS

Product Strategy & Management: Product Strategy & Vision | Product Portfolio Management | Product Lifecycle Management | Platform Product Management | Product Discovery | Product Requirements (PRDs) | MVP Definition | Roadmap Prioritization | Feature Prioritization | Product Backlog Management | Go-to-Market (GTM) Strategy

Customer & Experience: Customer Research | Voice of Customer (VoC) | Customer Journey | User Experience (UX) | Design Thinking

Product Delivery & Execution: Agile (Scrum/Kanban) | Cross-Functional Leadership | Stakeholder Management | Risk Management

Analytics & Decision Making: Product Analytics | OKRs & KPI Management | Data-Driven Decision Making

Platform & Engineering: Platform Modernization | Digital Transformation | Cloud & Infrastructure Products | Engineering Governance | Product Operating Model

Business & Financial Management: Financial Governance | Total Cost of Ownership (TCO) Optimization

People Leadership: Team Leadership | Coaching & Mentoring

PROFESSIONAL EXPERIENCE

Oct 2024 - Present | A.P. Moller Maersk, Bengaluru | Lead Technical Product Owner

- Established and scaled the **Network Architecture & Engineering product portfolio** by launching the organization's first Product House for LAN, WAN, & Virtual Connectivity. Improved device provisioning, observability, & operational control by **40%** through in-house platform capabilities.
- Architected the **Product Operating Model** for Technology Service Engineering, governing the end-to-end lifecycle of **15+ enterprise products**. Achieved **95% delivery quality** with zero critical Go-Live risks.
- Designed **enterprise-wide engineering governance and TCO frameworks**, standardizing product health metrics, executive scorecards, and lifecycle decisions (Accelerate, BAU, Sunset) across **42 strategic products**.
- **Automated product intelligence and engineering KPIs** by defining Architecture Decision Records (ADRs) and integrating real-time telemetry into the control plane. Reduced manual reporting by **60%** while accelerating executive decision-making.
- Directed a **multi-year platform modernization program**, transitioning from vendor-managed solutions to in-house engineering platforms. Delivered **~\$10M in annual cost savings** while aligning global stakeholders and executing a three-year product roadmap supported by PRFAQs and operational excellence frameworks.

Jan 2024 – Aug 2024 | Stellantis, Bengaluru | Principal Product Manager

- Designed and operationalized a **global customer discovery framework** across APAC, EMEA, and South America, leveraging personas, Voice of Customer (VoC) insights, and Design Thinking workshops to drive data-driven product prioritization and roadmap decisions for the Affordable vehicle portfolio.
- Led **MVP definition and feature prioritization** for the inaugural Affordable vehicle platform, identifying **16 high-impact features** through customer insights, engineering feasibility, and business value to support Q4 2024 SOP and launch readiness.

- Spearheaded the **product integration strategy** between the Smart Cockpit and Affordable platforms, enabling seamless cross-platform capabilities, an enhanced user experience, and cohesive technology adoption for the production vehicle launch.

Oct 2023 – Jan 2024 | Fictiv Technology Solutions, Bengaluru | Senior Product Manager

- Defined the **product vision and roadmap** for the Workbench digital manufacturing platform, translating customer research into **18 high-impact interface features** & intelligent vendor orchestration capabilities that enhanced user experience and platform adoption.
- Led end-to-end **product discovery and feature prioritization**, partnering with engineering and business stakeholders to deliver scalable workflows that optimized vendor routing and streamlined digital manufacturing operations.
- Designed and executed a **phased GTM strategy**, aligning product releases with customer needs and business objectives to accelerate market adoption and maximize commercial impact.
- Partnered with **cross-functional teams** to drive planning, requirements definition, and delivery, ensuring customer-centric solutions, seamless execution, and alignment throughout the product lifecycle.

Sep 2016 – Jun 2023 | Amazon, Seattle, United States | Product Manager Technical

- Owned the **end-to-end product lifecycle** for multiple **0-to-1 and scaled platform products** across Asset Management, Fulfilment Technology, Transportation, and Seller Experience. Defined product vision, roadmaps, and execution to improve traceability, productivity, inventory accuracy, and operational excellence.
- Delivered **8+ global customer-facing and platform products** across web and mobile. Leveraged customer insights, experimentation, and data-driven prioritization to enhance search relevance, improve purchase decisions, reduce customer contacts, and accelerate product adoption across Amazon Marketplace.
- Led **fulfilment technology innovation** by launching RFID-enabled asset management, handheld/ring scanner solutions, Directed Stow, and Stow UI 2.0. Enabled warehouse automation, streamlined operational workflows, and improved fulfilment quality across non-robotic fulfilment centres.
- Directed **enterprise platform migrations and global product launches** in partnership with engineering, UX, data science, and business stakeholders. Ensured seamless technology transitions, scalable platform architecture, & high-quality product delivery.
- Built and mentored a high-performing **team of 10 members**. Drove Agile execution, roadmap planning, GTM strategy, UAT, and experimentation while enabling **four promotions** through coaching and performance leadership.

EARLY CAREER

Dec 2015 – Sep 2016 | First American, Bengaluru | Quality Manager

Led quality management, operational planning, and process governance for global mortgage services, ensuring consistent service excellence across international markets.

Jul 2014 – Jul 2015 | ABB, Bengaluru | Manager, Quality Assurance & Control

Managed an 11-member quality team, driving product quality, manufacturing excellence, and continuous improvement across the low-voltage MCB value chain.

May 2013 – Jun 2014 | International Paper, Hyderabad | Assistant Manager, Demand Planning & Supply Chain

Led demand planning, inventory optimization, and cross-functional supply chain initiatives to improve inventory efficiency and launch readiness.

Dec 2012 – Apr 2013 | Jaya Shree Textiles (Aditya Birla Group) | Senior Excellence Officer, World Class Manufacturing

Directed business excellence, governance, compliance, and process improvement initiatives across manufacturing operations.

Aug 2006 – Apr 2009 | Schneider Electric, Chennai | Product Technical Pilot, Quality

Led new product introduction (NPI), quality engineering, process validation, and root-cause analysis for MCB and RCCB product lines.

EDUCATION

MBA (Major in Strategic Supply Chain Management) | University of South Wales, UK | 2011

Received **Best Dissertation Award** in MBA under Human Resource Management category by ACAS, Wales

B.E. (Electrical and Electronics Engineering) | M.S. Ramaiah Institute of Technology, Bengaluru, India | 2006

CERTIFICATIONS

Black Belt – KPMG | ISO 9001:2008 -TUV | Document Ninja - Amazon
